M.D. (Dermatology, Venerology & Leprosy) : SUMMER - 2019

SUBJECT-PAPER-I BASIC SCIENCES IN RELATION TO DERMATOLOGY, VENEREOLOGY AND LEPROSY

Day : Saturday
Date : 01/06/2019

S-2019-3789

Time : 2.00 P.M. TO 5.00 P.M
Max. Marks: 100

N.B.

1) All questions are **COMPULSORY**.
2) Figures to the right indicate **FULL** marks.
3) Draw neat labeled diagram **WHEREVER** necessary.

Q.1 Describe process of keratinization. Enumerate keratinization disorders. Add a short note on any one of them. **(15)**

Q.2 Describe intradermal tests in dermatology. **(15)**

Q.3 Attempt **ANY SEVEN** (10 marks each) **(70)**

i) Porokeratosis

ii) Heme Synthesis

iii) Beta blockers in dermatology

iv) Woods lamp in dermatology

v) Pathergy

vi) Tyrosine inhibitors

vii) Ultraviolet B (UVB)

viii) Immunofluorescence in Systemic Lupus Erythematosus (S.L.E.)

* * * *

M.D. (Dermatology, Venerology & Leprosy) : SUMMER - 2019

SUBJECT-PAPER-II DERMATOLOGY AND DERMATOSURGERY

Day : Monday
Date : 03/06/2019

S-2019-3790

Time : 2.00 P.M. TO 5.00 P.M
Max. Marks: 100

N.B.

1) All questions are **COMPULSORY**.
2) Figures to the right indicate **FULL** marks.
3) Draw neat labeled diagram **WHEREVER** necessary.

Q.1 A patient on anti-epileptic drug, phenytoin presents with extensive vesiculo-bullous rash. How will you manage this patient? **(15)**

Q.2 Discuss differential diagnosis and management of leg ulcers. **(15)**

Q.3 Attempt **ANY SEVEN** (10 marks each) **(70)**

i) Delusion of parasitosis

ii) Acne Inversa-Grading and management

iii) Hair removal lasers

iv) Skin disorders with sterile pustular eruptions

v) Management of Chronic Urticaria

vi) T.S,D.F. (Topically Steroid Damaged Face)

vii) Leukoplakia- causes and management

viii) Tuberculids

* * * *

M.D. (Dermatology, Venerology & Leprosy) : SUMMER - 2019

SUBJECT-PAPER-III SEXUALLY TRANSMITTED DISEASES AND LEPROSY

Day : Thursday
Date : 06/06/2019 **S-2019-3791** Time : 2.00 P.M. TO 5.00 P.M
Max. Marks: 100

N.B.

1) All questions are **COMPULSORY**.
2) Figures to the right indicate **FULL** marks.
3) Draw neat labeled diagram **WHEREVER** necessary.

Q.1 Describe various tests for diagnosis of H.I.V. infection. **(15)**

Q.2 Newer drugs and various regimens in treatment of leprosy. **(15)**

Q.3 Attempt **ANY SEVEN** (10 marks each) **(70)**

i) Safe Sex Practices

ii) Syndromic approach to S.T.D.

iii) Animal models in leprosy

iv) Foot drop in leprosy

v) Various laws of Congenital Syphilis

vi) Leprosy by year 2020

vii) Jarisch Herxheimer reaction

viii) Nerve complication affecting eye in leprosy

* * * *

060619-e-medical-pune

M.D. (Dermatology, Venerology & Leprosy) : SUMMER - 2019

SUBJECT-PAPER-IV- SKIN AND INTERNAL MEDICINE AND RECENT ADVANCES

Day : Saturday
Date : 08/06/2019

S-2019-3792

Time 2.00 P.M. TO 5.00 P.M
Max. Marks: 100

N.B.

1) All questions are **COMPULSORY**.
2) Figures to the right indicate **FULL** marks.
3) Draw neat labeled diagram **WHEREVER** necessary.

Q.1 Discuss clinical features, classification and management of Melanocytic naevi. **(15)**

Q.2 Describe clinical features, investigations and treatment of Dermatomyositis. **(15)**

Q.3 Attempt **ANY SEVEN** (10 marks each) **(70)**

i) Phakomatosis

ii) Uses of Platelet rich plasma in dermatology

iii) Non-medical management of Androgenetic Alopecia

iv) Nanotechnology in dermatology

v) Rickettsial skin infections

vi) A.G.E.P. (Acute Generalised Exanthematous Pustulosis)

vii) Excimer laser

viii) Botulinum toxin in dermatology

* * * *

080619-e-medical-pune

M.D. (DERMATOLOGY), VENEROLOGY & LEPROSY)
SUMMER - 2018

BHARATI VIDYAPEETH DEEMED UNIVERSITY MEDICAL COLLEGE, PUNE LIBRARY

SUBJECT: PAPER-I- BASIC SCINCES IN RELATION TO DERMATOLOGY, VENEROLOGY AND LEPROSY

Day: **Saturday** **S-2018-3375** Time: **2.00 P.M. TO 5.00 P.M**
Date: **02/06/2018** Max. Marks: 100

N.B:

1) All questions are **COMPULSORY.**
2) Figures to the right indicate **FULL** marks.
3) Draw neat labeled diagrams **WHEREVER** necessary.

Q.1 What is biological agent? Classify biologicals used in psoriasis. Describe work up to be done before starting a biological. **(15)**

Q.2 Describe phototherapy and photo-chemotherapy. **(15)**

Q.3 Write **ANY SEVEN** of the following: **(70)**

a) Vaccines for H.P.V.

b) Structure of nail

c) Haem biosynthesis and its applied importance

d) Syndromic approach to S.T.D.

e) Describe physical sunscreens

f) Discuss thermoregulation of skin and its applied importance

g) Topical calcineurin inhibitors in dermatology

h) What is dermascopy? Describe dermascopic features seen in various skin and hair disorders

* * * * *

2018-e-medical-pune

M.D. (DERMATOLOGY, VENEROLOGY & LEPROSY) :
SUMMER - 2018
SUBJECT: PAPER-II- DERMATOLOGYAND DERMATOSURGERY

BHARATI VIDYAPEETH DEEMED UNIVERSITY MEDICAL COLLEGE, PUNE LIBRARY

Day: **Monday** **S-2018-3376** Time: **2.00 P.M. TO 5.00 P.M**
Date: **04/06/2018** Max. Marks: 100

N.B:

1) All questions are **COMPULSORY.**
2) Figures to the right indicate **FULL** marks.
3) Draw neat labeled diagrams **WHEREVER** necessary.

Q.1 Classify ichthyosis. Discuss the various ichthyosiform syndromes. **(15)**

Q.2 Classify blisters based on histopathology. How will you manage 25 years old female with extensive Pemphigus vulgaris- 1st episode. **(15)**

Q.3 Write **ANY SEVEN** of the following: **(70)**

a) What is contact dermatitis? Discuss common allergens encountered in day to day life causing dermatitis

b) Discuss various cicatricial alopecias

c) What is life cycle of sarcoptes scabei? Describe its applied importance

d) Enumerate perforating disorders of skin and describe any one

e) Describe etiology, clinical features and management of erythema nodosum

f) Describe management of acne scars

g) Discuss various premalignant conditions of skin

h) What is solar spectrum? How do you classify sunscreens accordingly?

* * * * *

LIBRARY

M.D. (DERMATOLOGY, VENEROLOGY & LEPROSY) : SUMMER - 2018

SUBJECT: PAPER-III- SEXUALLY TRANSMITTED DISEASES AND LEPROSY

Day: **Wednesday** S-2018-3377 Time: **2.00 P.M. TO 5.00 P.M**

Date: **06/06/2018** Max. Marks: 100

N.B:

1) All questions are **COMPULSORY.**
2) Figures to the right indicate **FULL** marks.
3) Draw neat labeled diagrams **WHEREVER** necessary.

Q.1 Classify congenital syphilis. Describe late congenital syphilis. **(15)**

Q.2 What is Multi Drug Therapy? What are various regimens and their advantages and disadvantages? **(15)**

Q.3 Write **ANY SEVEN** of the following: **(70)**

a) Enumerate eye complications in leprosy. Describe in brief those due to nerve involvement

b) Discuss Antibody tests in H.I.V.

c) Describe differential diagnosis of Genital discharge in female

d) Describe systemic complications of leprosy

e) Discuss experimental leprosy

f) Discuss 3 glass test

g) Discuss S.T.D. and pregnancy

h) Discuss pathology of nerve involvement in leprosy

* * * * *

M.D. (DERMATOLOGY, VENEROLOGY & LEPROSY) : SUMMER - 2018

SUBJECT: PAPER-IV- SKIN AND INTERNAL MEDICINE AND RECENT ADVANCES

BHARATI VIDYAPEETH DEEMED UNIVERSITY MEDICAL COLLEGE, PUNE LIBRARY

Day: **Friday** S-2018-3378 Time: **2.00 P.M. TO 5.00 P.M**

Date: **08/06/2018** Max. Marks: 100

N.B:

1) All questions are **COMPULSORY.**
2) Figures to the right indicate **FULL** marks.
3) Draw neat labeled diagrams **WHEREVER** necessary.

Q.1 Discuss various skin manifestations in Diabetes. **(15)**

Q.2 Discuss etio -pathogenesis and management of Hirsuitism. **(15)**

Q.3 Write **ANY SEVEN** of the following: **(70)**

a) Apremilast

b) Describe small vessel vasculitis

c) Describe clinical features and management of EPILOIA

d) Describe hair transplant techniques

e) Discuss Pigmented purpuric dermatoses

f) Enumerate dermatoses of pregnancy and discuss management of Herpes Gestationis

g) Describe various migratory erythemas

h) What is D.R.E.S.S.? How will you manage the condition?

BHARATI VYAPEETH DEEMED UNIV. MEDICAL COLLEGE, PUNE LIBRARY 60

M.D. (Dermatology, Venerology & Leprosy) : WINTER - 2018
SUBJECT: PAPER-I- BASIC SCINCES IN RELATION TO DERMATOLOGY, VENEROLOGY AND LEPROSY

Day: Saturday
Date: 01/12/2018

Time: 2.00 P.M. TO 5.00 P.M
Max. Marks: 100

W-2018-3519

N.B:

1) All questions are **COMPULSORY.**
2) Figures to the right indicate **FULL** marks.
3) Draw neat labeled diagrams **WHEREVER** necessary.

Q.1 Draw structure of Basement membrane zone. Enumerate all antigens located on it. Discuss its applied importance. **(15)**

Q.2 Classify anti-fungal drugs. What is anti-fungal resistance? How will you manage a case of extensive, recurrent dermatophytosis? **(15)**

Q.3 Write **ANY SEVEN** of the following: **(70)**

a) Serological tests for syphilis

b) Giant cells in dermatology

c) Special stains in dermatology

d) Describe any condition showing dyskeratotic cells

e) Structure of hair and hair cycle

f) Enumerate misnomers in dermatology and describe any one

g) What is resident flora of skin? How do you manage recurrent furunculosis?

h) Describe physiological changes in neonatal skin

* * * * *

M.D. (Dermatology, Venerology & Leprosy) : WINTER - 2018

SUBJECT: PAPER-II- DERMATOLOGYAND DERMATOSURGERY

BHARATI VIDYAPEETH DEEMED UNIVERSITY MEDICAL COLLEGE, PUNE LIBRARY

Day: Monday
Date: 03/12/2018

W-2018-3520

Time: 2.00 P.M. TO 5.00 P.M
Max. Marks: 100

N.B:

1) All questions are **COMPULSORY.**
2) Figures to the right indicate **FULL** marks.
3) Draw neat labeled diagrams **WHEREVER** necessary.

Q.1 Enumerate different types of Porokeratosis. Describe etiology, clinical and histopathological features and management of any one. **(15)**

Q.2 What are causes of Erythroderma? Discuss management of erythroderma due to mycosis fungoides. **(15)**

Q.3 Write **ANY SEVEN** of the following: **(70)**

a) Mechanism of bulla formation. Discuss cytolytic blisters

b) Enumerate types of acne and discuss acne rosacea

c) Classify skin tuberculosis. Describe exogenous skin TB

d) Compare electrocauterization and Radiofrequency

e) What is P.R.P.? What are indications in dermatology? How is the treatment done?

f) Discuss management of Erythema Nodosum

g) Discuss hair removal lasers

h) Discuss skin conditions caused by Pox viruses

* * * * *

03/218-e-medical-pune

M.D. (Dermatology, Venerology & Leprosy) : WINTER - 2018

SUBJECT: PAPER-III- SEXUALLY TRANSMITTED DISEASES AND LEPROSY

Day: Wednesday
Date: 05/12/2018

Time: 2.00 P.M. TO 5.00 P.M
Max. Marks: 100

W-2018-3521

N.B:

1) All questions are **COMPULSORY.**
2) Figures to the right indicate **FULL** marks.
3) Draw neat labeled diagrams **WHEREVER** necessary.

Q.1 Discuss evolution of treatment of leprosy and current strategy. **(15)**

Q.2 What is bubo? Compare various buboes in S.T.D. Describe management of various buboes. **(15)**

Q.3 Write **ANY SEVEN** of the following: **(70)**

a) Classify Anti-Retroviral drugs. Discuss any one group in detail as to dosages, combinations and side effects

b) Discuss Lepromin test

c) Discuss non venereal lesions over male genitalia

d) Discuss management of neuropathic foot ulcer in leprosy

e) Classify congenital syphilis and describe features of late congenital syphilis

f) B.I., M.I. and S.F.G. index in leprosy

g) Discuss post exposure prophylaxis in H.I.V. infection

h) Discuss Leprosy vaccines

M.D. (Dermatology, Venerology & Leprosy) : WINTER - 2018

SUBJECT: PAPER-IV- SKIN AND INTERNAL MEDICINE AND RECENT ADVANCES

Day: Friday **W-2018-3522** Time: 2.00 P.M. TO 5.00 P.M

Date: 07/12/2018 Max. Marks: 100

N.B:

1) All questions are **COMPULSORY.**
2) Figures to the right indicate **FULL** marks.
3) Draw neat labeled diagrams **WHEREVER** necessary.

Q.1 What are A.R.A. criteria for diagnosis of S.L.E. Discuss the ANA patterns and disease specification? **(15)**

Q.2 Discuss skin manifestations seen in Renal diseases. **(15)**

Q.3 Write **ANY SEVEN** of the following: **(70)**

a) Classify lipoproteinemias. Describe tuberous xanthomas

b) Discuss clinical features, diagnosis and management of Hyalinosis Cutis et Mucosae

c) Describe etiology, clinical features and management of Pellagra

d) What are causes of Acute skin failure?

e) Discuss nail changes in systemic diseases

f) Discuss medical management of vitiligo

g) Classify and describe cutaneous amyloidosis. Add a note on skin features of systemic amyloidosis

h) Discus management of infantile hemangiomas

* * * * *

MAKARANDGAD: SUMMER 2017
SUBJECT : PAPER-I – BASIC SCIENCES IN RELATION TO DERMATOLOGY, VENEROLOGY AND LEPROSY

Day : Tuesday
Date : 23/05/2017

Time : 2.00 P.M. TO 5.00 P.M
Max. Marks : 100.

N.B.:

1) All questions are **COMPULSORY.**
2) Figures to the **RIGHT** indicate full marks.
3) Draw neat labeled diagrams **WHEREVER** necessary.

Q.1 Describe anatomy of male genitalia and its lymphatic drainage. **(15)**

Q.2 Classify anti-histamines. Discuss management of chronic urticaria. **(15)**

Q.3 Write any **SEVEN** of the following: **(70)**

a) Langerhans cell in dermatology

b) Epidermal melanin unit

c) Lichenoid reaction

d) Cytokines in dermatology

e) Hair cycle

f) Functions of skin

g) Laboratory diagnosis of mycetoma

h) Histopathology of lepra reactions

* * *

MAKARANDGAD: SUMMER 2017
SUBJECT : PAPER-II – DERMATOLOGY AND DERMATOSURGERY

BHARATI VIDYAPEETH DEEMED UNIVERSITY MEDICAL COLLEGE, PUNE LIBRARY 47

Day : Thursday
Date : 25/05/2017

Time : 2.00 P.M. TO 5.00 P.M.
Max. Marks : 100.

N.B.:

1) All questions are **COMPULSORY.**
2) Figures to the **RIGHT** indicate full marks.
3) Draw neat labeled diagrams **WHEREVER** necessary.

Q.1 Discuss management of patient with severe psoriasis and H.I.V. **(15)**

Q.2 Discuss recalcitrant dermatophytoses with regard to etiology and management strategy. **(15)**

Q.3 Write any **SEVEN** of the following: **(70)**

a) Application of Platelet Rich Plasma in dermatology

b) Discuss common transient neonatal dermatoses

c) Amyloidosis Cutis dyschromica

d) Topical steroid damaged face

e) Hair restoration surgeries

f) Management of Severe Acne

g) Newer concepts in Melasma

h) Antioxidants in dermatology

* * *

MAKARANDGAD: SUMMER 2017

SUBJECT : PAPER-III – SEXUALLY TRANSMITTED DISEASES AND LEPROSY

BHARATI VIDYAPEETH DEEMED UNIVERSITY MEDICAL COLLEGE, PUNE LIBRARY 46

Day : Saturday
Date : 27/05/2017

Time : 2.00 P.M. TO 5.00 P.M
Max. Marks : 100.

N.B.:

1) All questions are **COMPULSORY.**
2) Figures to the **RIGHT** indicate full marks.
3) Draw neat labeled diagrams **WHEREVER** necessary.

Q.1 Describe structure of H.I.V. and mechanism of action of anti-retroviral drugs. **(15)**

Q.2 Discuss Neuritis in leprosy. **(15)**

Q.3 Write any **SEVEN** of the following: **(70)**

a) Gummatous syphilis

b) Newer drugs in leprosy

c) Complications of Gonorrohea

d) Trophic ulcers in leprosy

e) Type II lepra reaction

f) S.T.D.S. in pregnancy

g) Bone changes in leprosy

h) Bacterial vaginosis

* * *

MAKARANDGAD: SUMMER 2017
SUBJECT : PAPER-IV – SKIN AND INTERNAL MEDICINE AND RECENT ADVANCES

BHARATI VIDYAPEETH DEEMED UNIV. MEDICAL COLLEGE, PUNE LIBRARY

Day : Monday
Date : 29/05/2017

Time : 2.00 P.M. TO 5.00 P.M
Max. Marks : 100.

N.B.:

1) All questions are **COMPULSORY.**
2) Figures to the **RIGHT** indicate full marks.
3) Draw neat labeled diagrams **WHEREVER** necessary.

Q.1 Discuss Laboratory investigations for a patient of S.L.E. **(15)**

Q.2 Discuss cutaneous manifestations of G.I. disorders. **(15)**

Q.3 Write any **SEVEN** of the following: **(70)**

a) Classification and management of Mastocytosis
b) Zinc in dermatology
c) Calcinosis cutis
d) Skin banking
e) Newer antifungals
f) Brimonidine in dermatology
g) Tele dermatology
h) Radiofrequency in dermatology

* * *

M.D. (DERMATOLOGY, VENEROLOGY & LEPROSY) : WINTER - 2017

SUBJECT : PAPER-I – BASIC SCIENCES IN RELATION TO DERMATOLOGY, VENEROLOGY AND LEPROSY

Day : Saturday
Date : 02/12/2017

W-2017-3293

Time : 2.00 P.M. TO 5.00 P.M
Max. Marks : 100.

N.B.:

1) All questions are **COMPULSORY.**
2) Figures to the **RIGHT** indicate full marks.
3) Draw neat labeled diagrams **WHEREVER** necessary.

Q.1 Describe structure of eccrine sweat gland and discuss disorders associated with it. **(15)**

Q.2 Discuss pathogenesis of vitiligo and discuss briefly its classification. **(15)**

Q.3 Write any **SEVEN** of the following: **(70)**

a) Clofazimine

b) Discuss in brief prenatal diagnosis

c) Patch test

d) Laboratory diagnosis of urethral discharge

e) Special stains in dermatology

f) Morphological index in leprosy

g) Haem biosynthesis and porphyrias

h) Giant cells

* * *

M.D. (DERMATOLOGY, VENEROLOGY & LEPROSY) : WINTER - 2017

SUBJECT : PAPER-II – DERMATOLOGY AND DERMATOSURGERY

BHARATI VIDYAPEETH DEEMED UNIVERSITY MEDICAL COLLEGE, PUNE LIBRARY 51

Day : **Monday**
Date : **04/12/2017**

W-2017-3294

Time : **2.00 P.M. TO 5.00 P.M**
Max. Marks : 100.

N.B.:

1) All questions are **COMPULSORY.**
2) Figures to the **RIGHT** indicate full marks.
3) Draw neat labeled diagrams **WHEREVER** necessary.

Q.1 Discuss management of first episode of pemphigus vulgaris in a 40 years female who is diabetic. **(15)**

Q.2 Discuss diagnosis and management of Panniculitis. **(15)**

Q.3 Write any **SEVEN** of the following: **(70)**

a) Life cycle of pediculosis and its management

b) Q switched Nd-YAG laser

c) Oral candidiasis and its management

d) Newer chemical peels

e) Cyclosporine in dermatology

f) Lamellar Ichthyosis

g) Transient lesions in newborn

h) Cutaneous larva migrans

* * *

MAKARANDGAD: SUMMER – 2016

SUBJECT : PAPER – III: SEXUALLY TRANSMITTED DISEASES & LEPROSY

Day : Monday
Date : 06-06-2016

Time : 2.00 P.M. To 5.00 P.M.
Max. Marks : 100

N.B.:

1) All questions are **COMPULSORY**.
2) Figures to the right indicate **FULL** marks.
3) Your answer will be evaluated as a whole.
4) Draw neat diagrams **WHEREVER** necessary.

Q.1 Discuss STDs due to Chlamydia trachomatis. **[15]**

Q.2 Discuss clinical features, management of trophic ulcers in leprosy. **[15]**

Q.3 Write **ANY SEVEN** of the following: **[70]**

a) Buschke Lowenstein's tumor.

b) Lepra bonita.

c) Enumerate and describe any one Psychosexual disorder.

d) Lepromin test.

e) I.R.I.S. in HIV infection.

f) Pure neuritic leprosy.

g) Immunotherapy of Venereal Warts

h) Newer antileprosy drugs

DDU LIBRARY 9 17 MEDICAL COLLEGE PUNE

VASAI : JUNE 2008
SUBJECT: PAPER – I
(BASIC SCIENCES IN RELATION TO DERMATOLOGY, VENEREOLOGY AND LEPROSY)

Day: Saturday
Date: 07-06-2008

Time: 2:00 P.M. TO 5:00 P.M.
Max. Marks: 100

N.B.:
1) All questions are **COMPULSORY**.
2) Draw neat diagrams wherever necessary.
3) Figures to the **RIGHT** indicate full marks.

Q.1 Describe Anatomy, embryology of nail and discuss nail changes in various skin disorders. **(25)**

Q.2 Discuss microbiology of M. leprae and discuss lepromin test. **(25)**

Q.3 Discuss in brief:

a) Hair shaft abnormalities **(13)**

b) Basement membrane zone **(12)**

Q.4 Write short notes on : **(25)**

a) Prozone phenomenon

b) Thalidomide

c) Langerhans cell

d) Excimer laser

e) Mediators of pruritus

VASAI : JUNE 2008
SUBJECT: PAPER – II
(S.T.D. AND LEPROSY)

Day: Monday
Date: 09-06-2008

Time: 2:00 P.M. TO 5:00 P.M.
Max. Marks: 100

N.B.:
1) All questions are **COMPULSORY**.
2) Draw neat diagrams wherever necessary.
3) Figures to the **RIGHT** indicate full marks.

Q.1 Discuss stigmata of congenital syphilis. **(25)**

Q.2 Discuss type II lepra reaction. **(25)**

Q.3 Discuss in brief:

a) Investigation and management of resistant gonococcal infection **(13)**

b) Kaposi's sarcoma **(12)**

Q.4 Write short notes on : **(25)**

a) Management of resistant case of H.P.V.

b) Syphilis in pregnancy

c) Dapsone syndrome

d) Tissue smear

e) Lucio Leprosy

VASAI : JUNE 2008
SUBJECT: PAPER – III
(DERMATOLOGY, DERMATOLOGY AND INTERNAL MEDICINE, RECENT ADVANCES)

Day: Wednesday
Date: 11-06-2008

Time: 2:00 P.M. TO 5:00 P.M.
Max. Marks: 100

N.B.:
1) All questions are **COMPULSORY**.
2) Draw neat diagrams wherever necessary.
3) Figures to the **RIGHT** indicate full marks.

Q.1 Discuss cutaneous manifestations of Systemic Sclerosis and its management in brief. **(25)**

Q.2 Discuss cutaneous manifestations of Diabetes and their management. **(25)**

Q.3 Discuss in brief:

a) Hair removal lasers **(13)**

b) Solar dermatoses **(12)**

Q.4 Write short notes on : **(25)**

a) Acquired Ichthyosis

b) Cryptococcosis

c) Myiasis

d) Keratoacanthoma

e) Tazarotene

VASAI : JUNE 2007
SUBJECT : PAPER-I
(BASIC SCIENCES RELATED TO DERMATOLOGY, STD AND LEPROSY)

Day : Tuesday
Date : 12/06/2007

Time : 2.00 PM TO 5.00 PM
Max. Marks : 100.

N.B.:

1) All questions are **COMPULSORY.**
2) Figures to the **RIGHT** indicate full marks.
3) Draw neat diagrams wherever necessary.
4) Your answer will be evaluated as a whole.

Q.1 Discuss composition of sebum and describe etiopathogenesis of acne and its management in brief. **(25)**

Q.2 Describe normal histology of oral mucosa and discuss Behcet's disease. **(25)**

Q.3 Discuss :

a) Structure of H.I.V. **(13)**

b) Hair cycle **(12)**

Q.4 Write short notes : **(25)**

a) Diode laser

b) Gummatous reaction

c) Giant cells

d) Histopathology of Darier's disease

e) Acanthosis Nigricans.

5

VASAI : JUNE 2007
SUBJECT : PAPER-II
(SEXUALLY TRANSMITTED DISEASES AND LEPROSY)

Day : Wednesday
Date : 13/06/2007

Time : 2.00 PM TO 5.00 PM
Max. Marks : 100.

N.B.:

1) All questions are **COMPULSORY.**
2) Figures to the **RIGHT** indicate full marks.
3) Draw neat diagrams wherever necessary.
4) Your answer will be evaluated as a whole.

Q.1 Discuss etiopathogenesis and management of neuropathic foot ulcer in leprosy. **(25)**

Q.2 Discuss syndrome management of Genital ulcer disease. **(25)**

Q.3 Discuss :

a) Animal models in leprosy **(13)**

b) Dermatological manifestations of HIV. **(12)**

Q.4 Write short notes : **(25)**

a) Thalidomide

b) Lucio leprosy

c) Bacterial index

d) Clandestine prostitute

e) Phagedenic chancroid.

LIBRARY 4 MEDICAL COLLEGE

VASAI : JUNE 2007
SUBJECT : PAPER-III
(DERMATOLOGICAL DISEASE, INTERNAL MEDICINE AND SKIN)

Day : Thursday
Date : 14/06/2007

Time : 2.00 PM TO 5.00 PM
Max. Marks : 100.

N.B.:

1) All questions are **COMPULSORY.**
2) Figures to the **RIGHT** indicate full marks.
3) Draw neat diagrams wherever necessary.
4) Your answer will be evaluated as a whole.

Q.1 Discuss etiopathogenesis, clinical features, lab. diagnosis and management of systemic sclerosis. **(25)**

Q.2 Describe opportunistic infections in A.I.D.S. **(25)**

Q.3 Discuss :

a) Mycetoma **(13)**

b) Perforating dermatoses. **(12)**

Q.4 Write short notes : **(25)**

a) Pellagra

b) Erythema toxicum neonatorum

c) Drug induced pemphigus

d) Erythema ab igne

e) Urticaria pigmentosa.

VASAI : AUGUST 2006
SUBJECT : PAPER-I
(BASIC SCIENCES)

Day : Tuesday
Date : 01/08/2006

Time : 2.00 P.M. TO 5.00 P.M.
Max. Marks : 100.

N.B.:

1) All questions are **COMPULSORY.**
2) Neat diagrams must be drawn **WHEREVER** necessary.
3) Figures to the **RIGHT** indicate full marks.
4) Write prescription where indicated, and in the use of drugs their doses should be given.

Q.1 Describe nail apparatus. Describe nail changes in psoriasis. **(25)**

Q.2 Describe anatomy of cervix. Discuss cervical involvement in S.T.D. **(25)**

Q.3 Discuss :

a) Role of Immunity in Leprosy. **(13)**

b) Use of Woods lamp in skin disorders. **(12)**

Q.4 Write short notes on :

a) Koebner phenomenon. **(05)**

b) Tzanck smear. **(05)**

c) Virchow cell. **(05)**

d) Vehicle. **(05)**

e) TNF. **(05)**

Scanned by CamScanner

VASAI : AUGUST 2006
SUBJECT : PAPER-II
(SEXUALLY TRANSMITTED DISEASES AND LEPROSY)

Day : Wednesday
Date : 02/08/2006

Time : 2.00 P.M. TO 5.00 P.M.
Max. Marks : 100.

N.B.:

1) All questions are **COMPULSORY.**
2) Neat diagrams must be drawn **WHEREVER** necessary.
3) Figures to the **RIGHT** indicate full marks.
4) Write prescription where indicated, and in the use of drugs their doses should be given.

Q.1 Discuss vertical transmission and its prevention in STD and AIDS. **(25)**

Q.2 Discuss etiopathogenesis and management of neuropathic foot ulcer in leprosy. **(25)**

Q.3 Discuss :

a) Cardiovascular syphilis. **(13)**

b) Leprosy vaccines. **(12)**

Q.4 Write short notes on :

a) Thalidomide. **(05)**

b) Laws of congenital syphilis. **(05)**

c) Leprosy in pregnancy. **(05)**

d) Gonococcal Arthritis. **(05)**

e) Lucio Phenomenon. **(05)**

Scanned by CamScanner

VASAI : AUGUST 2006
SUBJECT : PAPER-III
(DERMATOLOGICAL DISEASES, INTERNAL MEDICINE AND SKIN)

Day : Thursday
Date : 03/08/2006

Time : 2.00 P.M. TO 5.00 P.M.
Max. Marks : 100.

N.B.:

1) All questions are **COMPULSORY.**
2) Neat diagrams must be drawn **WHEREVER** necessary.
3) Figures to the **RIGHT** indicate full marks.
4) Write prescription where indicated, and in the use of drugs their doses should be given.

Q.1 Discuss briefly Lupus Erythematosus and its subsets and outline their management. **(25)**

Q.2 Describe causes, clinical features and management of Exfoliative Dermatitis. **(25)**

Q.3 Discuss :

a) Behcet's disease. **(13)**

b) Nucleoside Reverse Transcriptase Inhibitors. **(12)**

Q.4 Write short notes on :

a) CREST Syndrome. **(05)**

b) Isotretinoin. **(05)**

c) Pellagra. **(05)**

d) Impetigo herpetiformis. **(05)**

e) Henoch Schonlein purpura. **(05)**
