Q.1 A) Answer the following questions based on the passage below: **(08)**

Helen packed a small suitcase, said goodbye to her mother and hurried out of the house to catch the bus to the station. There was no one else waiting at the bus stop, so it looked as if a bus has just left. Helen looked at her watch anxiously it was already two O'clock. Her train left at two-thirty, and since it would take at least twenty minutes to reach the station, she did not have much time to spare, even if a bus came along at once. Just then, a taxi came slowly down the road. Helen knew that the fare to the station was at least two pounds, which was more than she could afford, but she quickly made up her mind that it would be well worth the extra expense in order to be sure of catching her train. So she stopped the taxi and got in. She told the driver that she had to catch a train, which left at half past two. The man nodded and said that he would take a short cut to get her to the station in good time. Helen reached the station just in time and managed to catch her train after all.
