

KAVERI-V: OCT/NOV 2008
SUBJECT : CONSERVATIVE DENTISTRY

Day : Friday
Date : 07-11-2008

Time : 9:00 A.M TO 12:00 Noon.
Max. Marks : 60.

N.B.:

- 1) All questions are **COMPULSORY**.
 - 2) Answers to the two sections should be written in **SEPARATE** answer books.
 - 3) Draw diagrams wherever necessary.
 - 4) Figures to the **RIGHT** indicate full marks.
-

SECTION-I

- Q.1** Composites as restorative material. (10)
- Q.2** What type of restoration would you suggest for a mandibular permanent first molar which has extensive caries on distal and mesial surface and is vital. Describe the preparation. (10)
- Q.3** Write short notes on any **TWO** of the following: (10)
- a) Moisture control in restorative dentistry
 - b) Casting shrinkage
 - c) Matrices and wedges.

SECTION-II

- Q.4** Classify and discuss endodontic sealers in detail. (10)
- Q.5** Discuss endodontic surgery with classification, flap design and basic principles of endodontic surgery. (10)
- Q.6** Write short notes on any **TWO** of the following: (10)
- a) Apex locators
 - b) Classification of periradicular lesions
 - c) Sodium hypochlorite.

KAVERI-V : Oct/Nov-2008.
SUBJECT : ORAL AND MAXILLOFACIAL SURGERY

Day : Monday
Date : 10-11-2008

Time : 9:00 A.M. TO 12:00 Noon.
Max. Marks : 60.

N.B.:

- 1) Answer any **THREE** questions from each section.
- 2) Answers to the two sections should be written in **SEPARATE** answer books.
- 3) Draw diagrams wherever necessary.
- 4) Figures to the **RIGHT** indicate full marks.

SECTION-I

- Q.1** Classify impacted maxillary canines. Describe the incision, flap design, technique for bone removal, sectioning, tooth delivery and closure for the surgical removal of a palatally impacted canine. **(10)**
- Q.2** Enumerate the constituents of a local anaesthetic solution and describe the role of each constituent. Classify complications of local anaesthesia. Describe the etiopathogenesis and management of anaphylactic shock. **(10)**
- Q.3** Classify fractures of the mandible. Describe the clinical features and treatment options for a displaced fracture at the angle of mandible. **(10)**
- Q.4** Write short notes on : **(10)**
- a) Principles of antibiotic therapy
 - b) Surgical management for Oro-antral fistula.

SECTION-II

- Q.5** Classify tumours of the jaws. Describe the clinical features and management of a large unicystic ameloblastoma of the body of mandible involving the inferior border. **(10)**
- Q.6** Discuss clinical features and management of Trigeminal Neuralgia. **(10)**
- Q.7** Describe the clinical features and management of unilateral bony temporomandibular joint ankylosis in a 10 year old patient. **(10)**
- Q.8** Write short notes on : **(10)**
- a) Clinical presentation of Le Fort II fracture
 - b) Mucocoele.

KAVERI-V : Oct/Nov-2008
SUBJECT : PERIODONTOLOGY

Day : Wednesday
Date : 05-11-2008

Time : 9:00 AM TO 12:00 Noon
Max. Marks : 60.

N.B.:

- 1) All questions are **COMPULSORY**.
- 2) Answers to the two sections should be written in **SEPARATE** answer books.
- 3) Figures to the **RIGHT** indicate full marks.
- 4) Draw neat diagrams **WHEREVER** necessary.

SECTION-I

- Q.1** Classify periodontal pockets. Describe the signs and symptoms of periodontal pocket. (10)
- Q.2** What is furcation involvement? Give the classification along with the management of grade II furcation involvement. (10)
- Q.3** Write short notes on any **TWO** of the following: (10)
- a) Periodontal changes associated with pregnancy.
 - b) Acute necrotizing ulcerative gingivitis.
 - c) Causes of gingival bleeding.

SECTION-II

- Q.4** What is gingivectomy? What are its indications and contraindications? Describe different techniques of gingivectomy. (10)
- Q.5** Describe in detail various osseous defects in periodontal disease. (10)
- Q.6** Write short notes on any **TWO** of the following: (10)
- a) Specific and non-specific plaque hypothesis.
 - b) Food impaction.
 - c) Inter-dental aids.

KAVERI-V: Oct/Nov. 2008
SUBJECT: PROSTHODONTICS

Day : Monday
Date : 03-11-2008

Time: 9:00 A.M. TO 12:00 NOON.
Max. Marks: 60.

N.B.:

- 1) All questions are **COMPULSORY**.
- 2) Answers to both the sections should be written in the **SEPARATE** answer books.
- 3) Draw neat and labeled diagram **WHEREVER** necessary.
- 4) Figures to the right indicate **FULL** marks.

SECTION-I

- Q.1** Discuss temporization in fixed partial dentures. [10]
- Q.2** Define direct retainer. Describe in brief various factors that influence clasp design. Discuss various types of occlusally approaching clasps. [10]
- Q.3** Write short notes on **ANY TWO** of the following: [10]
- a) Relining and Rebasing
 - b) Partial Veneer Crowns
 - c) Overdenture

SECTION-II

- Q.4** Define centric relation. Describe in brief various methods to record vertical dimension in complete dentures. Mention effects of recording incorrect jaw relation. [10]
- Q.5** What is a surveyor? Give its uses and mention its parts with diagram. Discuss surveying in detail. [10]
- Q.6** Write short notes on **ANY TWO** of the following: [10]
- a) Gingival retraction
 - b) Pontics
 - c) Indirect retainers
